Don't let our lives be wasted
We gave the ultimate for you to see
Don't let our lives be wasted
Use them as an opportunity for peace

It's a beautiful day, all over the land
We are one, united we stand
If you know the words, to this simple song
Bring peace to the world by singing along

The time has come for miracles
Let the healing begin
With peace as the goal
Everybody wins

An angel came to me and spoke yesterday
On a tropical island I heard him say
All those innocent lives, don't let them go to waste
You have the power to make a change

Chorus:

Every day and every night
I watch what I say to stay in the light
And I create that which I desire
I want love to take me higher

Chorus:
