

Live In Your Arms

I've lived in the desert; I've lived on the shore
Inhabited pages of books by the score
I've stayed with a good friend; I've slept on a beach
Spent time on the ocean, and had love within reach

CHORUS:

If I could live in your arms – live in your arms
Homesick for the warm inside
The lovingness your arms provide – live in your arms

I've camped in the redwoods; I've dwelled in a dream
Climbed up the mountains, I've floated down stream
I've traveled in Europe. I've been to the Louvre
Hitchhiked the highways, the rough and the smooth

CHORUS:

Bridge:

If I could just live in your arms for a day
Feel safe in the love that won't fade away
I'm not looking for alternate places to stay
Live in your arms; - if I could live in your arms
Live in your arms

I've lived on the fringes, the outskirts as well
I've thought about heaven, my wars have been hell
I've survived under pressure, thrived in the pain
Got here unbroken without breaking the chain

CHORUS:

(Vamp until end)
